# Opportunity statement

Lawyers *lose time, control, and confidence* while managing legacy agreements with unreliable manpower and machine un-readable documents.

**Legacy Agreements** Are Practically Machine-Unreadable

**Manual Review** Is Slow, Costly, and Error-Prone

People Risk Has Replaced **Legal Risk**

# How we **solve** this unique problem?

## **Must Have** (MVP)

- ❑ Multi-engine OCR (full image pdf of printed scans only)
- ❑ Document Accuracy Score
- ❑ Source-linked data extraction RAG
- ❑ Document inconsistency detection
- ❑ Instant access to complete text document

## **Should Have** (Phase 1)

- ❑ Multi-engine OCR (image+text pdf of printed scans)
- ❑ Complete record of all actions
- ❑ Multi-document field comparison
- ❑ Legal review workflows
- ❑ Org-level access control
- ❑ Confidence heatmaps

## **Could Have** (Phase 2+)

- ❑ Multi-engine OCR (hand-written text image pdf)
- ❑ AI legal assistant (text + voice)
- ❑ Offence-to-section mapping
- ❑ IBC workflow support
- ❑ Regulatory change alerts
- ❑ Private firm knowledge base
- ❑ SC & HC judgment ingestion

Our OCR solution is based on a **4-step** approach:

# Target Audience

## Primary Audience

### Phase 1 – Initial Focus

- Independent legal practitioners handling Title searches & Contract review
- Small-sized law firms (3–10 lawyers)

## Secondary Audience

### Phase 2 – Expansion

- Mid size Law Firms (10–50 lawyers)
  - Litigation and insolvency - focused legal teams
  - Due Diligence Teams
- Large Law Firms (50+ lawyers):
  - Regulated and process-heavy legal environments
  - Banks & Financial Institutions
  - Insolvency Professionals (IPs / RPs)
- Legal Research Teams
- International Law Firms (India desk)

# Thank You ✨

THE PLATFORM REDUCES MUNDANE LEGAL PROCESSES THAT CURRENTLY TAKE SEVERAL HOURS TO UNDER 15 MINUTES, WITHOUT COMPROMISING ACCURACY OR CONTROL.
